### **WEB SERVICES**

420-511-VA

# **PROJECT**

## **DELIVERABLE-2-**

Team Members: Theodore Tsimiklis(2065694), Jiahui Xia (2044092), Chilka Castro(2030864)

For this deliverable, you need to deliver the following:

# Project Plan

- Tasks, or user stories, breakdown (for the development of the web service and client)
- · Tasks assignment per team member,
- and Tasks schedule.
- The plan must be logged in a project tracking tool as a Kanban e.g., Trello. Trello Link
- A repository must be created for the code and shared with all team members e.g., GitHub. GitHub repository

# Design and Architecture Documents

A database ERD

### A class diagram

# A list of the web service API's endpoints For getting a specific user's appointments

domain/webservice/api/users/{userID}/appointments?api\_key=12345
OR

domain/webservice/api/appointments?api key=12345&userID=10

### To add an appointment

domain/webservice/api/appointments

#### To update or delete an appointment

domain/webservice/api/appointments/10

### For list of hospitals or clinics:

domain/webservice/api/hospitals

#### For list of hospitals or clinics based on a province

domain/webservice/api/hospitals?province="QC"

• A workflow, or data flow, diagram describing the interaction of the client with the web service and the back-end internal interactions of the web service, possibly with a third party API.

# **API Client**

- A list of features, or functionalities, that the client will support.
  - Users have access to Home Page and About Us page.
  - User can sign in through Login page.
